DETAILED ACTION

Allowable Subject Matter

Claims 1-24 are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: There is prior art disclosing the manipulation of thumbnail images according to a selected print quality (i.e. Yoshikawa 6,597,471). Prior art also discloses statistical calculation based upon an image being read (i.e. Greenly – U.S. Patent No. 3,496,543). The Examiner would also like to note that various forms of statistics calculations and thresholding are used in the image processing and printer environments (i.e. histograms). The reason for the allowance is that there is no prior art of record to suggest statistical calculation based upon the result of a precision selection and the determination of whether thumbnail data is present in image data, and the acquisition of a feature amount based upon the statistical calculation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
